## 1 Select your strategies

$$
\left(\begin{array}{ll}
(2,-2) & (-2,2) \\
(-1,1) & (1,-1)
\end{array}\right)
$$

1. Choose you strategies (as the column player) against the mixed strategy.
2. Wait for me to generate random strategies according to the random distribution.

| Round | $\begin{aligned} & \sigma_{1}=(.2, .8) \\ & s_{2} \\ & \hline \end{aligned}$ |  | $\begin{aligned} & \sigma_{1}=(.9, .1) \\ & s_{2} \mid \sum u_{2} \\ & \hline \end{aligned}$ |  | $\sigma_{1}$ $s_{2}$ | $\begin{array}{r} 1 / 3,2 / \\ \sum u_{2} \end{array}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 1 |  |  |  |  |  |  |
| 2 |  |  |  |  |  |  |
| 3 |  |  |  |  |  |  |
| 4 |  |  |  |  |  |  |
| 5 |  |  |  |  |  |  |
| 6 |  |  |  |  |  |  |
